exposures: new talent in moving image

Tue 21 – Thu 23 February 2012

exposures is the UK's largest festival of student moving image work and acts as a platform from which budding talent can springboard into the industry. The festival not only offers a host of opportunities to watch new work by fellow students and attend exciting workshops, it also is a great place to network with influential industry professionals in an informal setting. Don't let your students miss this opportunity. Young people can also send in their films to our **underexposed** festival category to get their films screened at Cornerhouse during the festival.
